TRANSCRIPTION

Jeg var om Morgen en inde at besee Castel Nouvo, hvor især den antique Port fra Alfon's Tiid er mærkeligt, da alt det andet har undergaaet store Forandringer. Det meeste af Dagen anvendte jeg ellers til at skrive til Moder;¹ om Aftenen spadseerede jeg lidt omkring men desværre gaaer meget af Fornøielsen tabt da man altid maa passe paa sine Lommer.

¹ Dvs. anden del af brevet dateret 23. august og 3. september 1835, som er nr. 46 på Rørbyes liste over afsendte breve 1834-37.
